How to use work schedule

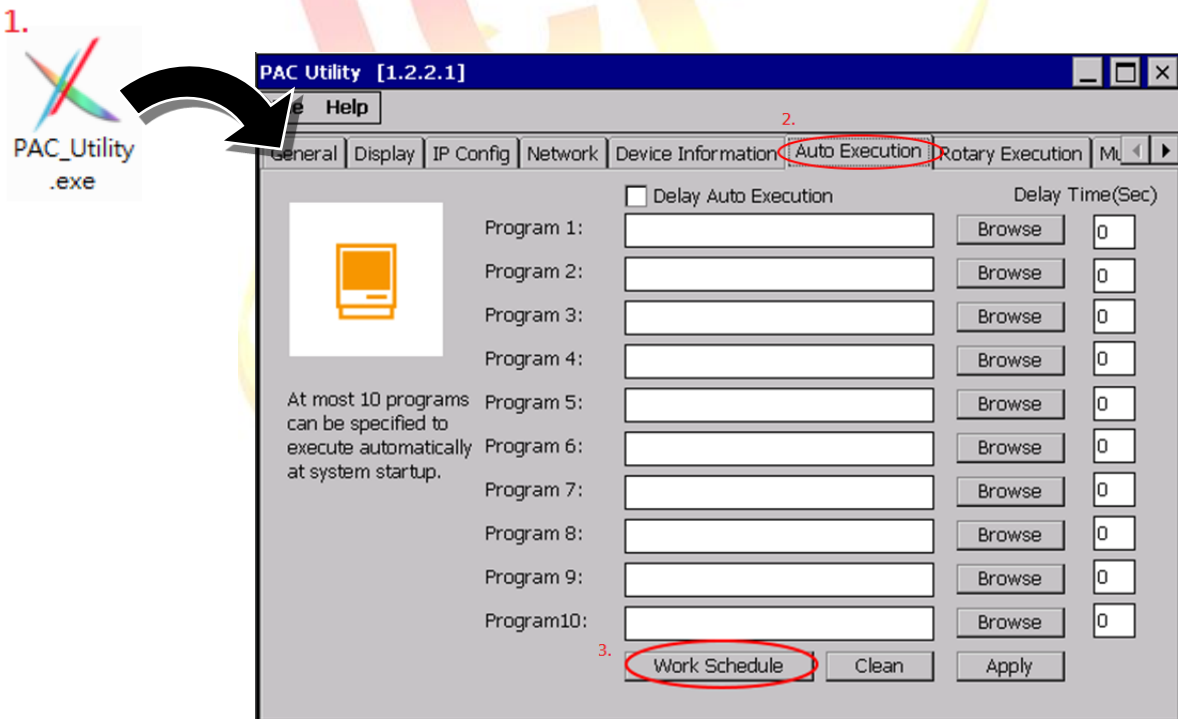

Applies to:

Platform	*OS version*	*WinPAC/ViewPAC utility version*
WP-9xxx	*All versions*	*All versions*
WP-8x2x	*All versions*	*All versions*
WP-5231	*All versions*	*All versions*

N/A: Not applicable to this platform and OS.

Please follow the steps below to set :

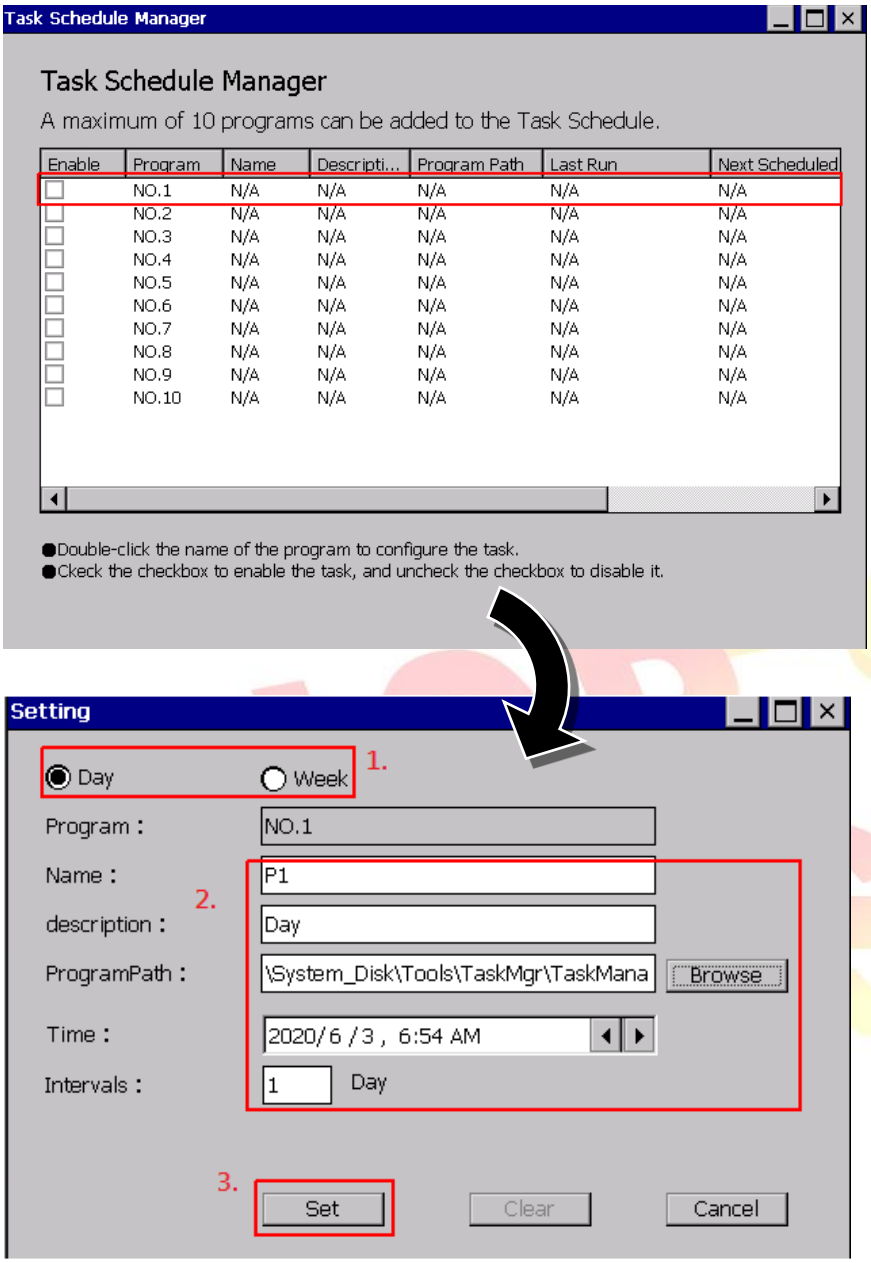

Step 1: Open PAC_Utility → Choose AutoExecution Page→ Click Work Schedule

Step 2: Setting

2.1. Double click on the empty field

Distribuída no Brasil pela LRI | vendas@lri.com.br | 51 2129-3000

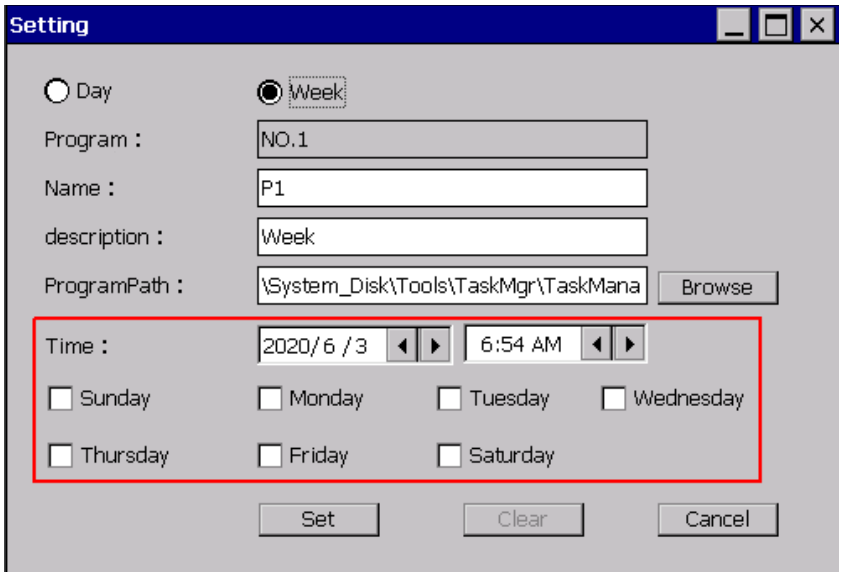

2.2.1 Select “Day” or “Week”. The above picture shows the setting of “Day”.
The figure below shows the setting of “Week”.

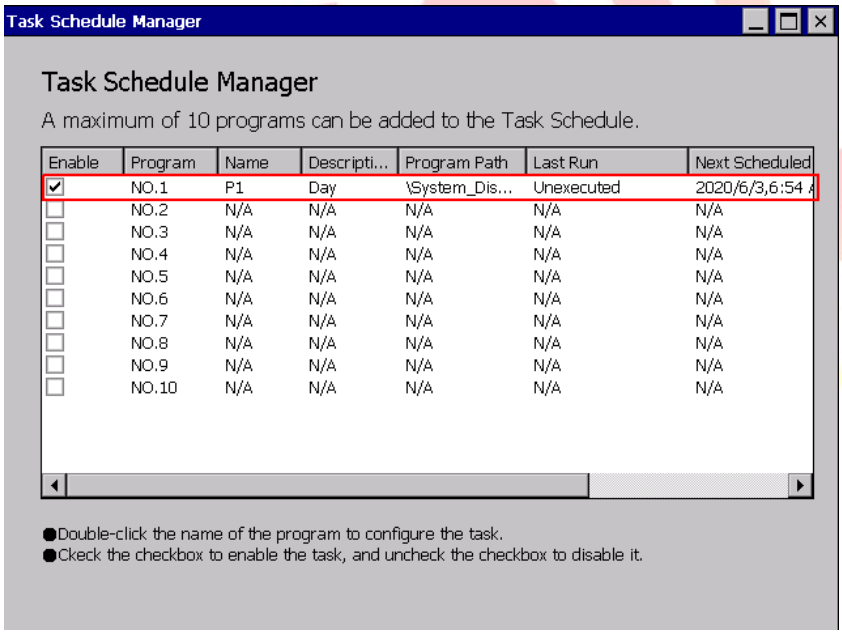

2.2.2 Set "name", "description", click "Browse" to set the program to be opened,
And then set the day.
From which day to start execution. Set the number of days between executions.
("Description" is not the necessarily needed field filled)
When setting with "week", check to execute on the day of the week.

2.2.3 Save settings
