Q: About the LINE Notify service termination, how should we handle the need to send instant messages in the future?

A:

Please update the firmware of WISE-523x / WISE-224x to version v2.0.0 or later, and refer to the user manual to send messages using the LINE Messaging API or Telegram feature.

Existing users can also refer to this document to import LINE Notify settings into the LINE Messaging API or Telegram settings for quick setup of the new features.
